■ At/Above Benchmark

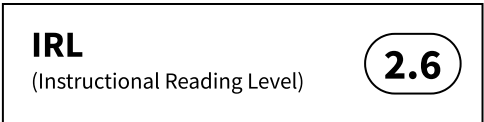

SHUAI's Scaled Score is based on the Lexile® scale.

SHUAL scored higher than 96% of students nationally in the same grade.

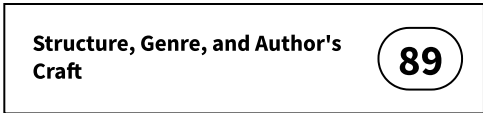

GE shows how SHUAI's test performance compares with the average grade 3 student at the beginning of the school year in the national norms group. It does not necessarily indicate the ability to read independently at this grade level.

SHUAI would be best served by instructional materials prepared at the second grade level.

Ranging from 0-100, domain scores estimate SHUAL's percent mastery of skills in each domain for kindergarten level material.
