■ At/Above Benchmark

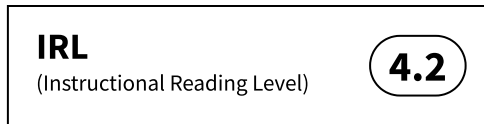

QIRU's Scaled Score is based on the Lexile® scale.

QIRU scored higher than 99% of students nationally in the same grade.

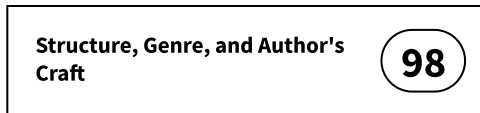

GE shows how QIRU's test performance compares with the average grade 4 student who has completed 80% of the school year in the national norms group. It does not necessarily indicate the ability to read independently at this grade level.

QIRU would be best served by instructional materials prepared at the fourth grade level.

Ranging from 0-100, domain scores estimate QIRU's percent mastery of skills in each domain for kindergarten level material.
